

Name: _____

CCSS 2.NBT.6 Add up to four two-digit numbers using strategies based on place value and properties of operations.

Adding Up to 4-Two Digit Numbers

6 Directions: Find the sums using place value and commutative property strategies.

$24 + 17 + 32 + 41 = \underline{\quad}$

$39 + 21 + 55 + 27 = \underline{\quad}$

____ I double checked my work.
