CCSS 2.NBT.6 Add up to four two-digit numbers using strategies based on place value and properties of operations.

## Adding Up to 4-Two Digit Numbers

~~6~~ Directions: Find the sums using place value and commutative property strategies.

$35 + 19 + 22 + 43 = \underline{\quad}$

$25 + 61 + 32 + 19 = \underline{\quad}$

\_\_\_\_ I double checked my work.
