

Name: _____

CCSS 2.NBT.6 Add up to four two-digit numbers using strategies based on place value and properties of operations.

Adding Up to 4-Two Digit Numbers

~~6~~ Directions: Find the sums using place value and commutative property strategies.

$27 + 52 + 12 + 18 = \underline{\quad}$

$16 + 39 + 37 + 46 = \underline{\quad}$

____ I double checked my work.
